Preparing for Life & Ministry

The Humanity of Jesus

Foundational to the story of the Gospel is the simultaneous divinity and humanity of Jesus Christ. As the perfect sacrifice for our sins, He had to be both fully human and fully God. We often focus on the divinity of Jesus, as we should, for He was divine. However, the humanity of Jesus was very real as well. In this paper, I will briefly discuss the humanity of Jesus as shown in John by His physical needs, need for communion with the Father, and deep human emotion.

One of the most evident reasons to believe that Jesus was fully human is His physical needs. The Gospel of John records this in several places, one being John 4. While on a journey with His disciples, Jesus was tired. He stayed at Jacob's well while His disciples went into the town to buy food. As He sat beside the well, a Samaritan woman came to draw water, and He asked her to give Him a drink. From this story, we come to find that Jesus experienced fatigue, hunger, and thirst, as all humans do. God has no need for anything, but Jesus needed rest and restoration from His journey. He also became thirsty when He was on the cross and drank wine vinegar from a sponge, according to John 19:28-29. The physical needs of Jesus while He was on earth point directly to His humanity.

Another aspect of Jesus' humanity is evidenced by His need for solitude. Many times in the Gospel of John

Jesus went off alone to think solitude, He communed with His and wisdom. John writes of ers left for Passover to go up to may be different reasons for about thirty hours, or three to would have had ample time on with His Father and refresh Himtry. Perhaps the Father was He was to do at the festival. In withdrawing from the crowds make Him king. During these

He this lonely walk to commune self for more public minisspeaking to Him about what John 6:15, it records Jesus when they were trying to times, He was most likely

finding peace and rest in His Father. Just as we need alone time for personal reflection and prayer, Jesus needed solitude to stay connected to His Father.

Jesus also experienced very deep and real human emotion. When He chased the moneychangers out of the temple in John 2, He was angry at the desecration of and irreverence for the temple. His Father's home was being treated as something to take lightly. It was robbing the Gentiles of the only part of the temple they were allowed. He also experienced deep grief and sorrow at the death of His friend, Lazarus, in John 11. Though He knew that Lazarus would soon be raised up, He wept and felt deeply for His own loss and that of His friends, Mary and Martha. The human emotion that He experienced are just another part of John that showcase the humanity of Jesus.

Jesus was God, but there was a part of Him that was most certainly human. If there was not, He would not be the divine-humanity essential to our salvation. Jesus overcame all the struggles and temptations that humanity experiences while remaining blameless. Therefore, His sacrifice has meaning. We can trust Him. The belief in the humanity of Jesus is foundational to the Gospel message. Through His physical needs for food, water, rest, and solitude, and through the human emotion and feeling we see in His life, we can begin to understand the principle of His humanity and strengthen our belief.
